

Priory Curriculum Intention

Our curriculum will prepare children for the future and will enable them to be valuable members of society who contribute positively, using the knowledge and skills obtained at Priory. They will become people who can use their higher order thinking and problem solving skills to be successful in a rapidly changing society; who 'Believe in themselves, Respect All and Succeed Together.'

Each learning opportunity and experience at Priory will provide hooks of learning enabling the children to make links between previous learning and future learning, with each year group forming a building block towards success in every child's personal learning journey in the drive for progress and improved outcomes.

Priory curriculum is built using the 'Science of Learning' research ensuring that staff provide high quality education; taught using key principles of how children learn and ensuring that essential learning is committed to our children's long-term memory.

Running throughout our curriculum will be our school values:

Believe in Yourself

Respect All

Succeed Together

Subject Specific Intentions

Success for All
